**VACCINATION** For the protection of your pet, Arnold Pet Station requires that all boarders be current on vaccinations. For Dogs, this includes Distemper/Parvo, Rabies, and Bordetella, which is an intranasal tracheobronchitis (canine cough) vaccine. For cats, this includes Distemper/Rhinotracheitis and Rabies vaccines. **We will not accept pets into the kennel if they are not properly vaccinated by a licensed veterinarian.**

**FLEAS** Your pet will be inspected for fleas on the day of entry to our kennel. **If your pet has evidence of fleas, s/he will be treated. It is recommended that all pets with evidence of fleas be bathed; a bath will be required for any pet that is heavily infested. A nominal charge will be applied to your bill for these services.** This will assure that your pet and all others will be free of fleas during the boarding period and when going home.

**DIET** During the boarding period, our staff will monitor your pet's appetite, urine and bowel habits, and attitude each day. Unless you request a special diet, your pet will be fed our normal premium diet: dry puppy/kitten, adult, or less active food. We also have canned adult food available. **If you bring your pet's own food, please bring only the amount that will be need during the boarding stay. We do not have storage space for large bags of food. We also ask that you package daily feedings individually in storage containers or plastic bags.**

**EMERGENCIES AND VETERINARY TREATMENT** If your pet should become ill during the boarding period, our professional staff will examine and treat your pet as required. Should problems arise during non-business hours, transport to AAVEC in Annapolis may be required. You will be responsible for any charges incurred for medical services and treatment administered. Dogs with recurrent diarrhea will be examined for internal parasites. **All dogs found to have internal parasites will be treated at the owner's expense to prevent contamination of our premises. If your pet needs to be moved from the boarding kennel to the hospital, daily hospitalization charges may apply instead of the daily boarding rate.** We will make every attempt to contact you if this situation occurs.

**Please indicate (INITIAL) whether you would like to be contacted should my pet require treatment during boarding.**

\_\_\_\_\_ It is not necessary to call me if my pet requires treatment.

**Outings and Group Play** All dogs will receive at least three outings per day. The frequency and duration of the

outings will be effected by the weather, the number of dogs boarding, and each individual dog's needs. Off-leash free time will be offered to every dog as frequently as possible.

We will also offer "buddied" play groups. This would allow select dogs to play with each other. Dogs will be individually picked by our trained staff to match temperaments. While our staff will make every effort to group dogs appropriately, a signed liability waiver will be required from those owners who wish their dogs to participate. Not all dogs will qualify for this option.

***I understand that while play groups will be closely monitored, unpredictable behavior may arise among dogs who are not familiar with each other. Therefore, I agree not to hold the Arnold Pet Station, Inc. responsible for any physical damage to my pet.
